# Are You Cyber Safe? For Teens

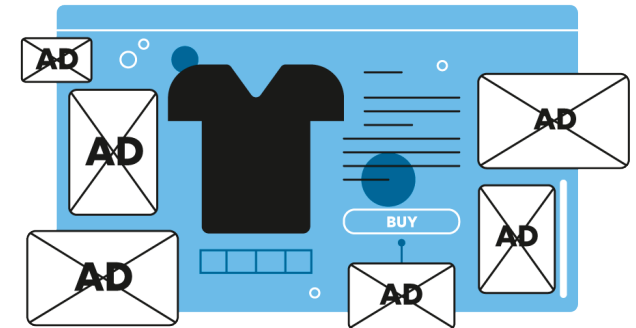

Can you spot red flags on the internet?  
It's tougher than you think.

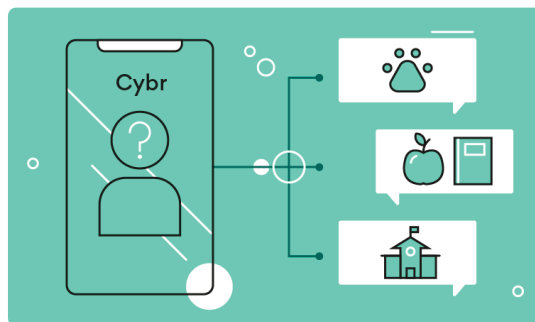

Make decisions throughout the game to  
avoid hackers, scammers, and viruses.  
Be careful! Too many bad decisions and  
you'll lose the game.

This Banzai Game, designed for ages  
13-18, is text-based and story-driven,  
giving teens the opportunity to learn  
about cyber security with funny  
scenarios and silly dilemmas. But just  
because it's silly, doesn't mean it's  
easy. Are you up for the challenge?

As you navigate through the game,  
you'll need to avoid some of the traps  
hackers use to get their hands on your  
info. Can you avoid a phishing scam?  
What about a sketchy website?

To play the game, go to
