

Scams Targeting Seniors

Scams are rampant these days. Unfortunately, many scams are targeted towards the senior population. The FBI reported that seniors lose over \$3 Billion dollars to scams every year. It's important to know what to look out for in order to recognize and avoid being scammed.

Vocabulary Terms

Scam: A dishonest or fraudulent scheme.

Malware: A system designed to disrupt, damage or gain access to a computer system.

Ransomware: A malicious software designed to block access to a computer system until a sum of money is paid.

Phishing: An act of pretending to be someone they're not, usually a familiar person or reputable company, in order to obtain personal or financial information.
