

# 2026 Roadmap

## Wellness Center Updates

### Financial Wellness Assessment Improvements

The Financial Wellness Assessment just got a big upgrade, but even more is coming. When your users complete the assessment, they'll be directed to specific resources, products, and services from your institution that will be most beneficial and relevant to their situation.

### Embedded Wellness Center Upgrade

Rather than embedding each resource one by one, you'll soon be able to embed a complete Wellness Center on your site. This embedded content will automatically utilize your site's existing colors, fonts, and overall brand style.

## Schools Updates

### News Literacy Games

Our Digital Citizenship library is expanding with new content and games focused on News Literacy. These resources will teach high and middle school students about navigating the world of online information.

### Financial Literacy Fair

This is your opportunity to connect with your schools and customers even further by helping run an in-person financial literacy fair where students face the reality of life's expenses. This packet will include everything you or your teachers need to facilitate a successful fair.

### More Elementary School Content

It's never too early to start teaching about financial literacy. To make that even easier, we will be increasing Banzai's (and thus, your) offerings for elementary school students.

## Wellness Center & School Updates

### More Tax Content

Taxes continue to be one of the most complicated and confusing parts of financial literacy. To address this, we'll be adding more content to help make this difficult topic easy to understand.

### Video

Video is coming! We're building a library of videos for both adult and student audiences that teach about key financial literacy topics, all with the Banzai flair you know and love.

### Improved Manager Reporting

With these updates, you'll have access to better, more in-depth information from your Manager analytics. This will help you better understand who is accessing your Banzai resources and ensure the resources are reaching the most relevant customers.

### More Spanish Translations

To make it easier for you to bring these resources to your community, more presentations and printable materials will be available in Spanish.
